Signal word (GHS-US)	: Danger			
Hazard statements (GHS-US)	: Causes severe skin burns and eye damage. May cause an allergic skin reaction. May cause cancer. May cause respiratory irritation. Causes damage to lungs through prolonged or repeated exposure.			
Prevention statements (GHS-US)	: Read label before use. Do not handle until all safety precautions have been read and understood Keep out of reach of children. Do not eat, drink or smoke when using this product. Wash hands thoroughly after handling. Wear protective gloves and clothing as well as eye and face protection. Remove contaminated work clothing. Use only outdoors or in a well-ventilated area. Do not breathe dust. Wear proper respirator, if needed, to avoid injury.			
Response statements (GHS-US)	: If swallowed, immediately call a poison center/doctor. Rinse mouth. Do NOT induce vomiting. If on skin or hair, immediately take off all contaminated clothing and wash before reuse. Rinse skin with water. If inhaled, remove person to fresh air and keep comfortable for breathing. Call a doctor if you feel unwell. If in eyes, immediately call a doctor. Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If exposed or concerned, get medical attention.			
Storage statements (GHS-US)	: Store to keep product dry until use. Store to prevent dust generation.			
Disposal statements (GHS-US)	: Dispose of contents and container in accordance with all local, state and federal regulations.			
Supplemental Information	 Read and Follow all precautions listed in the Safety Data Sheet available on request or at Ashgrovepkg.com. Additional information on the selection and use of respirators can be found in the <i>NIOSH Respirator Selection Logic</i> (DHHS [NIOSH] Publication No. 2005-100) and the <i>NIOSH Guide to Industrial Respiratory Protection</i> (DHHS [NIOSH] Publication No. 87-116) available at <u>http://www.cdc.gov/niosh/docs/87-116/</u>. 			
	This product contains greater than 0.1% crystalline silica. Crystalline silica has been linked to cancer, silicosis, and other lung problems in conditions of prolonged airborne over-exposure.			
	Keep product dry until use. Avoid contact with bleed water from wet product. Clothing saturated with wet product can result in delayed, serious alkali skin burns.

SECTION 4: First aid measures	
4.1. Description of first aid measure	es
First-aid measures after inhalation	: If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing. Get immediate medical advice/attention.
First-aid measures after skin contact	: In case of contact, immediately flush skin with plenty of water. Remove contaminated clothing Wash contaminated clothing before reuse. Get immediate medical advice/attention.
First-aid measures after eye contact	: If in eyes, rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a doctor.
First-aid measures after ingestion	: If swallowed, do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Get immediate medical advice/attention.
4.2. Most important symptoms and	effects, both acute and delayed
Symptoms/injuries after inhalation	: May cause respiratory tract irritation.
Symptoms/injuries after skin contact	 Causes severe skin burns. Symptoms may include redness, pain, blisters. Do not allow product to harden around any body part or allow continuous, prolonged contact with skin. May cause sensitisation by skin contact.
Symptoms/injuries after eye contact	: Causes serious eye damage. May cause burns. Symptoms may include discomfort or pain, excess blinking and tear production, with marked redness and swelling of the conjunctiva.
Symptoms/injuries after ingestion	: May be harmful if swallowed. May cause stomach distress, nausea or vomiting.
4.3. Indication of any immediate me	edical attention and special treatment needed
Symptoms may not appear immediately. In possible).	case of accident or if you feel unwell, seek medical advice immediately (show the label or SDS where
SECTION 5: Firefighting measur	es
5.1. Extinguishing media	
Suitable extinguishing media	: Treat for surrounding material.
5.2. Special hazards arising from the	ne substance or mixture
Fire hazard	: Product does not burn; however its packaging may. Products of combustion may include, and are not limited to: oxides of carbon.

5.3.	Advice for firefighters	
Firefight	ing instructions	: Keep upwind of fire. Wear full fire fighting turn-out gear (full Bunker gear) and respiratory protection (SCBA).

SECTION 6: Accidental release measures		
6.1. Personal precautions, protective e	quipment and emergency procedures	
General measures	: Use personal protection recommended in Section 8. Isolate the hazard area and deny entry to unnecessary and unprotected personnel. Avoid contact with skin and eyes.	

Masonry Cement Safety Data Sheet according to the Hazard Communication Standard (CFR29 1910.1200) HazCom 2012.

6.2. Methods and material for containment and cleaning up			
For containment	: Contain spill, then place in a suitable container. Do not flush to sewer or allow to enter waterways. Use appropriate Personal Protective Equipment (PPE).		
Methods for cleaning up	: Vacuum or sweep material and place in a disposal container. Provide ventilation.		
6.3. Reference to other sections			
No additional information available.			
SECTION 7: Handling and storage			
7.1. Precautions for safe handling			
Precautions for safe handling	Avoid contact with skin and eyes. Avoid generating and breathing dust. Do not swallow. Good housekeeping is important to prevent accumulation of dust. The use of compressed air for cleaning clothing, equipment, etc, is not recommended. Handle and open container with care. When using do not eat, drink or smoke.		
Hygiene measures	: Launder contaminated clothing before reuse. Wash hands before eating, drinking, or smoking		
7.2. Conditions for safe storage, include	ling any incompatibilities		
Storage conditions	: Keep out of the reach of children. Avoid any dust buildup by frequent cleaning and suitable construction of the storage area. Do not store in an area equipped with emergency water sprinklers. Clean up spilled material promptly.		
7.3. Specific end use(s)			

No additional information available.

SECTION 8: Exposure controls/personal protection

8.2. **Exposure controls**

Appropriate engineering controls	:	Use ventilation adequate to keep exposures (airborne levels of dust, fume, vapor, etc.) below recommended exposure limits.
Hand protection	:	Wear suitable gloves.
Eye protection	:	Wear approved eye protection (properly fitted dust- or splash-proof chemical safety goggles) and face protection (face shield).
Skin and body protection	:	Wear suitable protective clothing.

Safety Data Sheet

according to the Hazard Communication Standard (CFR29 1910.1200) HazCom 2012.

Respiratory protection	:	A NIOSH approved dust mask or filtering facepiece is recommended in poorly ventilated areas or when permissible exposure limits may be exceeded. Respirators should be selected by and used under the direction of a trained health and safety professional following requirements found in OSHA's respirator standard (29 CFR 1910.134) and ANSI's standard for respiratory protection (Z88.2).
Environmental exposure controls	:	Maintain levels below Community environmental protection thresholds.
Other information	:	Handle according to established industrial hygiene and safety practices.

Reproductive toxicity	: Based on available data, the classification criteria are not met.		
Specific target organ toxicity (single exposure)	: May cause respiratory irritation.		
Specific target organ toxicity (repeated exposure)	: Causes damage to organs (lung) through prolonged or repeated exposure. (Respirable crystalline silica in the form of quartz or cristobalite from occupational sources is listed by the International Agency for Research on Cancer (IARC) and National Toxicology Program (NTP) as a lung carcinogen. Prolonged exposure to respirable crystalline silica has been known to cause silicosis, a lung disease, which may be disabling. While there may be a factor of individual susceptibility to a given exposure to respirable silica dust, the risk of contracting silicosis and the severity of the disease is clearly related to the amount of dust exposure and the length of time (usually years) of exposure.)		
Aspiration hazard	: Based on available data, the classification criteria are not met.		
Symptoms/injuries after inhalation	: May cause respiratory tract irritation.		
Symptoms/injuries after skin contact	: Causes severe skin burns. Symptoms may include redness, pain, blisters. Do not allow product to harden around any body part or allow continuous, prolonged contact with skin. May cause sensitisation by skin contact.		
Symptoms/injuries after eye contact	: Causes serious eye damage. May cause burns. Symptoms may include discomfort or pain, excess blinking and tear production, with marked redness and swelling of the conjunctiva.		
Symptoms/injuries after ingestion	: May be harmful if swallowed. May cause stomach distress, nausea or vomiting.		
Other information	: Likely routes of exposure: ingestion, inhalation, skin and eye.		
SECTION 12: Ecological information			
12.1. Toxicity			
Ecology - general	: No ecological consideration when used according to directions. Do not flush to sewer or allow to enter waterways.
